CEFUROXIME SODIUM FOR INFUSION AND INJECTION

Thank you for expressing your interest to bid for the three Cefuroxime powder for infusion and injection UK marketing authorisations. The licenses are being sold as a bundle of three with rights to the dossier for the UK market only. Dossier rights for other countries are also available. The original prospectus is attached.

With the interest that has been shown we have decided to push back the bid deadline from 14th of January to the 21st of January 2022. (Being end of working day USA west coast pacific time)

To summarize the key points.

- All three licenses are current and live at the MHRA.
- PL numbers are shown below.
- The API is covered by a current CEP.
- The approved FDF site in China has a current GMP certificate.
- Our last GMP inspection audit reports are available for purchase.
- Current cost of goods is competitive to the NHS and private sector (Can be supplied on request).
- Managing supplier interfaces and other services available if required.
- The MHRA cost of ownership is taken by us and assumes client provides their data when requested.
