

# January Newsletter

Kicking off 2023!

## New offerings for a new year

### **Metformin Suspension 5mg/500ml**

Available now under license and supply arrangements based on new Dossiers.

To register your interest in this new product please email [ip@icepharmagroup.com](mailto:ip@icepharmagroup.com) or click the button below.

If you wish to receive an outline quotation, please state the market/s you are interested in and your estimated demand in single bottles.

If you are seeking a specific product dossier not on this list, or even a part dossier for your development work, we have an extensive list of part dossier's available upon request.

We offer a sourcing service at a competitive price and work with our extensive network across the globe to fulfill your requirements.

Additionally, if the dossier you select is not in CTD format, we can provide a range of services to match your needs.

Metformin in liquid form is designed for patients that have difficulty swallowing tablets.

It is also generally assumed that as a liquid the product's absorption rates are faster.

Our product is Nitrosamines free and the new CTD dossier is complete with all that's needed for a UK/EU regulatory submission or for other world markets.

If you wish to enquire about the above dossiers or our sourcing service, please get in

touch using the button below with your dossier requirements and we will send you a proposal.

Alternatively please email your dossier requirements over to [info@icepharmagroup.com](mailto:info@icepharmagroup.com).
