

NEW PRODUCT DOSSIERS

FOR SALE

LEVODOPA - BENSERAZIDE
CARBIDOPA - LEVODOPA
ENOXAPARIN

AVAILABLE FOR
LICENSE & SUPPLY

We are excited to be offering three new product dossiers, available for license and supply. As of today, these products have no market restrictions.

Levodopa - Benserazide & Carbidopa - Levodopa

Parkinson's is very severe disease for the people affected by it and those that seek to care for them. We are pleased to be offering two combination products in generic form.

Levodopa - Benserazide
Carbidopa - Levodopa.

Enoxaparin

Enoxaparin is the third dossier being offered for in licensing. Being a lower molecular weight heparin derivative Enoxaparin works with the body to reduce the effects of blood clots by stopping it from getting worse so that the body's enzymes break down the proteins that created the clot.

These are three newly developed dossiers and are available with supply.
